

THE YOU-GET SPRINTER™ IS A VERSATILE PROCESS APPLICATION FOR YOUR IBM BPM PLATFORM. IT IS MEANT TO ENABLE USERS TO AUTOMATE SIMPLE PROCESSES. WITH THE YOU-GET SPRINTER™ YOU CAN QUICKLY – WITHIN 30 MINUTES – BUILD A PROCESS, AND BRING IT LIVE IN 5 MINUTES.

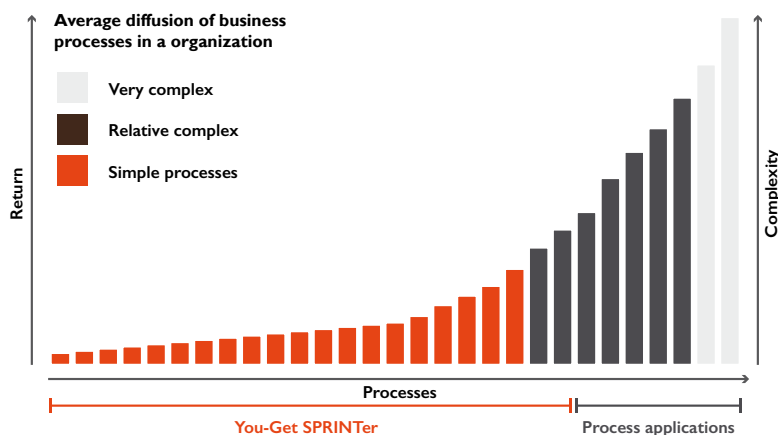

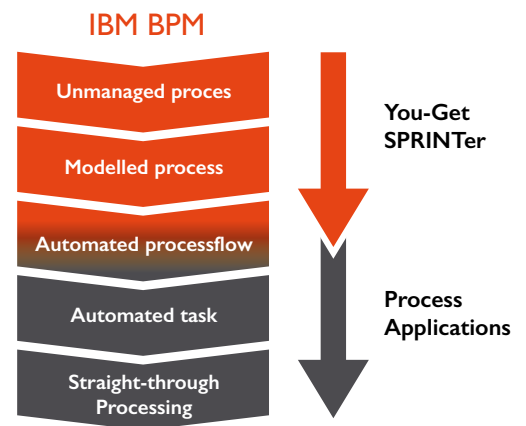

WHY THE YOU-GET SPRINTer™?

Every organization has a lot of simple unstructured processes. Think about processes like declaration of travel costs, onboarding of a new employee, or a straightforward handling of complaints. For the automation of simple processes you now have the You-Get SPRINTer.

As a user of the SPRINTer you can create your own simple process applications without extensive planning and involvement of IT resources, allowing you to be more in control of your processes, flexible with changes, and more efficient with your work.

Should you identify opportunities to optimize your process even further, then the SPRINTer allows you to make modifications in a heartbeat. This captures the power of the SPRINTer: Flexible and easily adjustable.

CHARACTERISTICS

The You-Get SPRINTer is defined by:

- ▶▶ 100% Pure IBM BPM functionality
- ▶▶ Build your (structured & ad hoc) process in minutes
- ▶▶ Have your process live in minutes
- ▶▶ Use existing IBM BPM users
- ▶▶ Governance and version control on build & deploy
- ▶▶ Full audit trail on running tasks

▶▶ BENEFITS

With the You-Get SPRINTER you will get:

- ▶▶ Greater control over your business
- ▶▶ Flexibility in your Processes
- ▶▶ Standardization in your Processes
- ▶▶ Full Process Auditability
- ▶▶ Efficiency in Time to Market
- ▶▶ Immediate Visibility of BPM
- ▶▶ Low Costs and High ROI

HR	FRONT OFFICE	BACK OFFICE
Start of Employee	Order creation	Invoice approval
Expense approval	Request for copy	New card request
Travel	Simple claims	Notification process
Complaints	Complaints	Work order
Review Cycle	Change of priceplan	Discount request
Holiday request	General questions	Change of address

◀◀ Examples of processes suitable for SPRINTER

▶▶ RETURN ON INVESTMENT

Since building your simple processes will be reduced to a matter of minutes, a lot of time can be saved in terms of decreasing the need for additional internal and external expertise.

Normally the activity of setting up and gathering requirements, building etc. normally would take 2 weeks, this can now be reduced to a matter of days.
